GUARD YOUR EYE GATES

The eye is the lamp of the body: If your eyes are healthy, your whole body will be full of light. Mathew 6:22 NIV

Choose not to partner with the very same spirit that is fueling human sex trafficking.

Help Stop Demand.

Porn fuels exploitation and trafficking. It is commonly known in the anti-trafficking field that 80% of survivors report that their customers showed pornography to illustrate the kinds of sexual acts they want preformed. Besides being forced to watch pornography, victims of sex trafficking often have a much more violent interaction through forced performance in the industry.

Porn Corrupts Innocence

If you are struggling with Porn addiction there is hope. See our online resource guide for confidential support.

CHALLENGE CULTURE THAT EXPLOITS

Challenge your friends when you see actions or hear words that permit exploitation.

Take a stance against industries that exploit. Choose not to enter Strip Clubs.

See the intrinsic value, the humanity of every person.

I will hold my friends accountable for their actions and words towards women.

I accept the challenge, and choose to live as a Freedom Fighter everyday.
